

GAS FIREPLACE INSERTS

REGENCY-FIRE.COM

WHY CHOOSE REGENCY?

At Regency, our past 40 years have been focused on providing a high-level of service while building high-quality and reliable products that our customers can enjoy for years to come.

HIGH-QUALITY

Producing a high-quality product has been at the very heart of what we do from when that very first stove rolled off the production line over 40 years ago to today. We are ever-focused on producing quality products for our customers that will last for years to come.

BEST WARRANTY

A fireplace should be reliable and should work right the first time it is used, and the 1,000th. A core part of our business is making sure that we are building long-lasting, durable, high-quality products; we back-up that commitment with the industry's best warranty on all our products.

COST-EFFICIENT

Never before have home heating costs been higher. Turn your furnace way down and zone heat with our beautiful, reliable and convenient Regency products. Not only can you cut your fuel bills in half, but you'll be able to enjoy the timeless comfort of a Regency fire.

Why Regency? Because it's more than a fireplace!

LRI3E shown with regular backing plate and Vignette faceplate in Tuscan Sunset

LRI3E shown with arched backing plate and arched Vignette faceplate in black

COMPACT AND EFFICIENT

Regency is proud to present the newest addition to the Liberty gas insert family, now available in a smaller size to fit a larger array of spaces. Enjoy timeless, artisan crafted logs with the combined power of radiant & convective heat. Vignette designer faceplates provide you with the choice to create a modern transitional look or a traditional look with Georgian & Tudor styles.

SPECIFICATIONS (NATURAL GAS)*

Input (BTU)	20,500
Turn down to (BTU)	14,000
Efficiency (steady state)	73.12%
EnerGuide Rating (Canada only)	66.25%

MINIMUM FIREPLACE OPENING

MAXIMIZING COMFORT AND EFFICIENCY

Regency Fireplace Inserts deliver *controllable heat solutions* that combine the latest in radiant and convection heat technology with innovative features:

- Adjustable flame/heat control with Proflame remote controls.
- Heat radiating ceramic glass for maximum radiant heat.
- Safety screen.
- Variable speed blower to distribute heat into the farthest corners of your room.
- Intelligent Ignition System features fuel saving intermittent pilot ignition (IPI), 7-day continuous pilot mode (CPI), and 5 second Flame Failure Response Time (FFRT) for more reliable startups - even in cold weather.
- Power's Out, Heat's On. Never worry about being cold during a power outage again! All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.

REMOTE CONTROL - INCLUDED

Proflame I GTMF Remote Control

Proflame II GTMF Remote Control

Create optimal comfort with ease and convenience at the touch of a button with a Regency remote control. Our *user friendly programmable controls* can be set, adjusted and programmed for your fireplace to turn on at the temperature you want, when you want it.

- ✓ Standard

**Smart Thermostat - Rather than a thermostat that simply turns your fireplace on and off, the smart control function allows you to set your desired room temperature. As the room reaches your personal setting, the flame intensity and heat will gradually decrease - keeping the ambiance of your Regency fire on with less heat output, and the option to turn it off at any time.*

SAFETY SCREEN - INCLUDED

Regency has integrated a custom designed safety screen into each faceplate design that meets or exceeds current North American safety legislation.

**Low profile faceplate shown*

DIRECT VENT TECHNOLOGY

A Regency gas insert is a specially engineered, sealed fireplace that slips into your existing masonry or pre-fab fireplace to create a **high efficiency heating system** with a beautiful fire. The airtight firebox uses outside air for combustion helping maintain indoor air quality and keeping all the warmth generated from your fireplace in your home.

Even when the fireplace is turned off, the sealed system will prevent cold air from entering the home and warm air from leaving.

INTELLIGENT IGNITION SYSTEM

The Intelligent Ignition System included in Regency gas fireplace inserts helps save you money while maintaining fireplace reliability and performance. It does this by ensuring the pilot light is lit only when it is needed. With **intermittent pilot ignition (IPI)** the pilot light is lit only before the fireplace is used.

For colder climates the fireplace can also be set to **continuous pilot mode (CPI)** where the pilot will stay lit for up to 7 full days between uses. With a new **5 second Flame Failure Response Time (FFRT)** sensor, the ability to light the pilot light the first time is improved drastically, especially in cold climates. Experience increased reliability, performance and lower gas bills with the intelligent ignition system from Regency.

SPREAD THE WARMTH

REMARKABLE EFFICIENCY

The precision engineered heat exchanger systems dramatically increase the overall heating efficiency of these Regency gas inserts. The cold air from your room passes through the pre-heated heat exchanger system which is then re-distributed back into your room as comforting warm air (also known as **convection heat**).

POWERFUL RADIANT HEAT

Not only do these gas inserts include the latest innovations in fireplace technology and efficiencies, they also generate a large amount of **radiant heat** from the flames and glow of the fire package. The heat from the fire radiates through the ceramic glass and transfers that warmth to you, providing the perfect combination of radiant and convective heat distribution.

VARIABLE SPEED BLOWER TO MAXIMIZE EFFICIENCY

Regency blowers are a standard feature with all gas inserts. A blower will let you enjoy the warmth of your fireplace from any corner of your living space. Our **quiet blowers** increase the efficiency of your fireplace by pushing the heat produced by your fireplace forward, distributing it further and evenly into your room.

Blower

FIREPLACE SELECTION WORKSHEET

We want you to enjoy your beautiful Regency fireplace for years to come. To help you figure out which product is just right for your home, fill in the following worksheet. Once complete, visit your nearest Regency dealer. Your professional Regency dealer will assess your needs - including local building codes - and install your Regency.

1. BASIC PRODUCT FUNCTION QUESTIONS

- a. I would like my unit to provide me with: ☐ Supplemental heating ☐ Priority heating
- b. The room/rooms I would like to heat are: _____ sq. ft.

2. FIREPLACE PRODUCT TYPE AND MEASUREMENTS

- a. I am: ☐ Installing a new fireplace ☐ Installing into an existing fireplace
- b. Fill in the following measurements:
- Ceiling Height: _____
- Location in the room: _____
- c. What is the:
- Flooring material: _____
- Wall material: _____
- Ceiling material: _____
- d. Fireplace opening dimensions:
- Width (front): _____
- Width (back): _____
- Height: _____
- Depth: _____
